19. **MESRST Ministry of Higher Education and Scientific Research - Tunisia**

4PRIMA Coordination and Support Action will create the bases and support for a long-term, well-structured and integrated partnership for research and innovation on food systems and water resources, between countries from both side of the Mediterranean Region, (PRIMA Initiative: www.prima4med.org).

4PRIMA will develop a Strategic Research and Innovation agenda and an associated implementation plan as a result of an intensive participatory process, that will target a critical mass of key players at international level and all relevant stakeholders of the food and water sectors.

Moreover in order to maximize its expected impact, **4PRIMA** project will explore avenues for awareness raising and development of strategic alliances with key stakeholders including EU, AC and MPCs countries that did not take part to the PRIMA joint programming process, with the goal of enlarging participation to the PRIMA initiative.

4PRIMA started on May 1st 2016 and will last 18 months.
