

PARTNERSHIP FOR RESEARCH
AND INNOVATION IN THE MEDITERRANEAN AREA

Interactive discussion useful for defining the PRIMA Strategic and Research Innovation Agenda (SRIA)

Diego S. Intrigliolo*

Spanish National Research Council (CSIC)

Spanish National (MINECO) Expert for PRIMA scientific aspects

*email: dintri@cebas.csic.es Tel: +34656682880

Barcelona, 1st September 2016

EU project 724060 - The project is funded
by European Commission under Horizon 2020

Discussion

- **Groups of 10 people with a moderator**
- **All attenders are asked to fill the survey (all inputs will be considered!)**
- **Each group has 50 minutes for discussion**
- **The moderators will summarize to the entire audience in 5 minutes the group survey and the inputs received**
- **Inputs will be considered for defining the PRIMA SRIA**

Survey

PARTNERSHIP FOR RESEARCH
AND INNOVATION IN THE MEDITERRANEAN AREA

Name: _____

Organization name and type: _____

Survey

PARTNERSHIP FOR RESEARCH
AND INNOVATION IN THE MEDITERRANEAN AREA

PILLAR 1: Smart water management for arid and semi-arid areas

OBJECTIVES

Please, mark with an X the objective you consider has the highest priority:

- To test and stimulate adoption of context-tailored water-saving solutions, in particular in agriculture
- To improve land and water sustainability in arid and semi-arid watersheds
- To elaborate and stimulate adoption of new policies and protocols for the governance of water management systems.

Survey

TOPICS					
<i>Please mark one option per Topic</i>					
Very High Priority	High Priority	Medium Priority	Low Priority	Very Low Priority	
					Understanding groundwater processes and link with surface water for catchment/basin balance
					Technical and social aspects of water saving and management in agriculture
					Technologies adapted to smallholders and to local conditions
					Soil, water and vegetation interactions
					Water systems governance
					Water reuse and water desalination for use in agriculture
					Water-energy nexus governance and tools
<i>If you consider, please propose other Topics, not initially considered under this Pillar:</i>					

Survey

Type of activity to be financed by PRIMA				
<p>Please, mark with an X the type of R&D activity you consider it is better suited for each topic: RIA (Research and Innovation at low Technology Readiness Level (TRL)), IA (Innovation actions, including Pilot-Demo at high TRL), CSA (Coordinated and support actions), TM (training and mobility actions).</p>				
PILLAR 1: Smart water management for arid and semi-arid areas	RIA	IA	CSA	TM
Understanding groundwater processes and link with surface water for catchment/basin balance				
Technical and social aspects of water saving and water management in agriculture				
Technologies adapted to smallholders and to local conditions				
Soil, water and vegetation interactions				
Water systems governance				
Water reuse and water desalination for use in agriculture				
Other topic (Specify)				

Survey

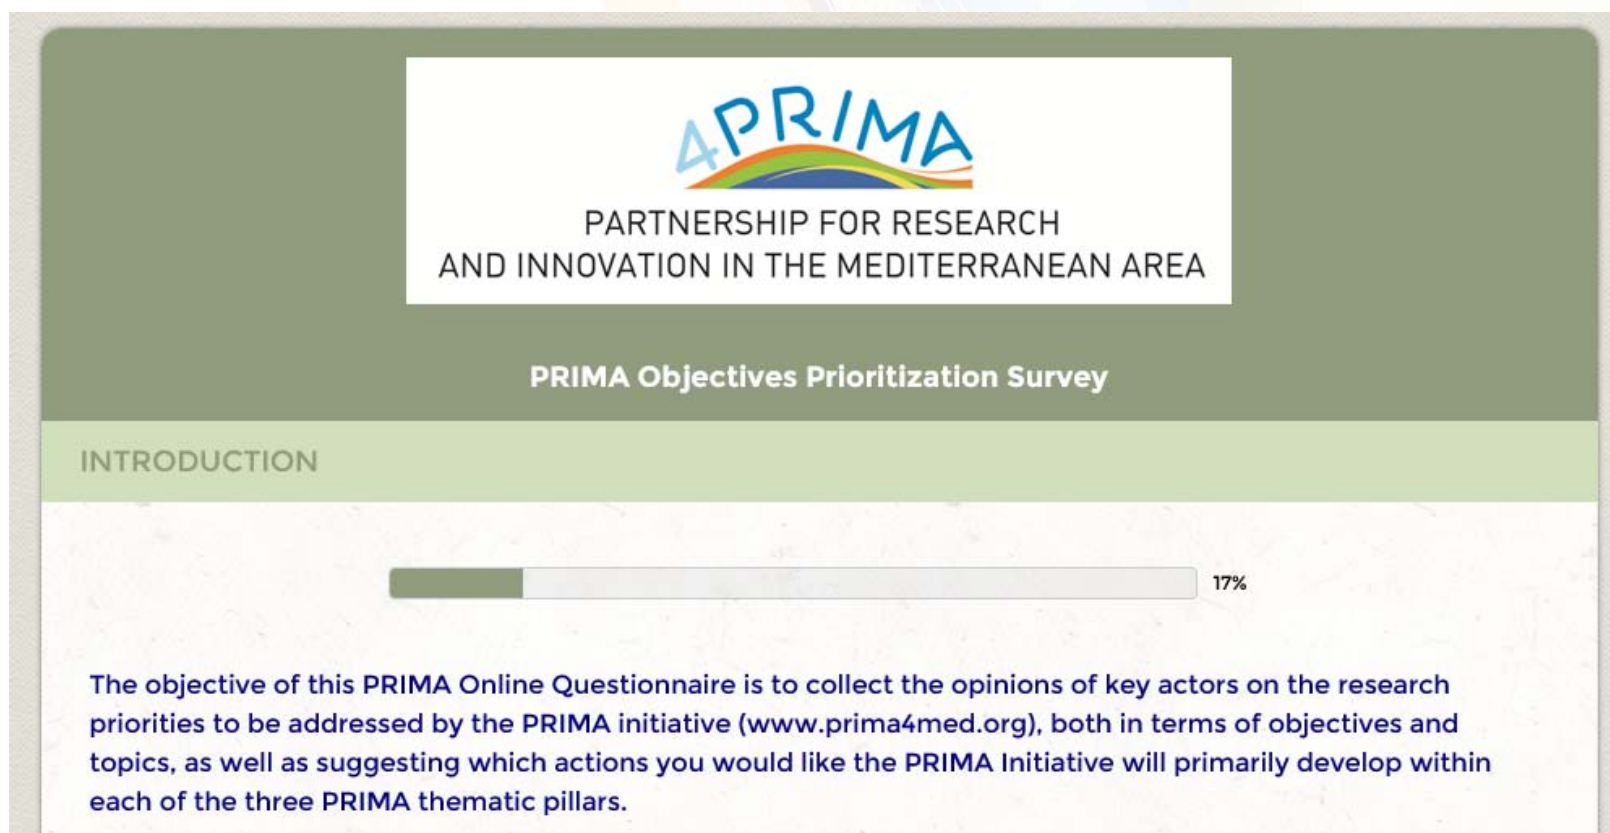

Type of activity to be financed by PRIMA¶

Please, mark with an **X** the type of R&D activity you consider it is better suited for each topic: **BR** (Basic research), **RiA** (Research and Innovation, including Pilot-Demo), **CSA** (Coordinated and support actions, including mobility and infrastructure sharing programmes).¶

PILLAR 1: Smart water management for arid and semi-arid areas¶	BR¶	RiA¶	CSA¶
Understanding groundwater processes and link with surface water for catchment/basin balance¶	☐	☐	☐
Technical and social aspects of water saving and water management in agriculture¶	☐	☐	☐

<i>Other topic (Specify)¶</i>	☐	☐	☐

On-line survey still opened to general public until 30 September

<https://it.surveymonkey.com/r/PRIMAPrioritizationSurvey>

The screenshot shows the introduction page of the PRIMA Objectives Prioritization Survey. At the top, the PRIMA logo is displayed, consisting of the word 'PRIMA' in blue with a rainbow arc underneath. Below the logo, the text reads 'PARTNERSHIP FOR RESEARCH AND INNOVATION IN THE MEDITERRANEAN AREA'. The survey title 'PRIMA Objectives Prioritization Survey' is centered below. A green bar with the word 'INTRODUCTION' is visible. A progress bar shows 17% completion. The main text explains the survey's objective: to collect opinions on research priorities for the PRIMA initiative (www.prima4med.org) and suggest actions to be developed within the three thematic pillars.

After the Stakeholder event

- You will receive by email:
 - The participants list with their email contacts
 - PDF copies of the presentations delivered
 - Regular updates about the PRIMA initiative development
 - Consultations for further defining the PRIMA SRIA

Thank you for your collaboration!
